

To be eligible to receive psychiatric rehabilitation services in the state of Maryland:

The client has a mental health DSM-IV diagnosis included in the Priority Population as defined by the Maryland Department of Health & Mental Hygiene, and the client's impairment(s) can be expected to be stabilized at this level of care.

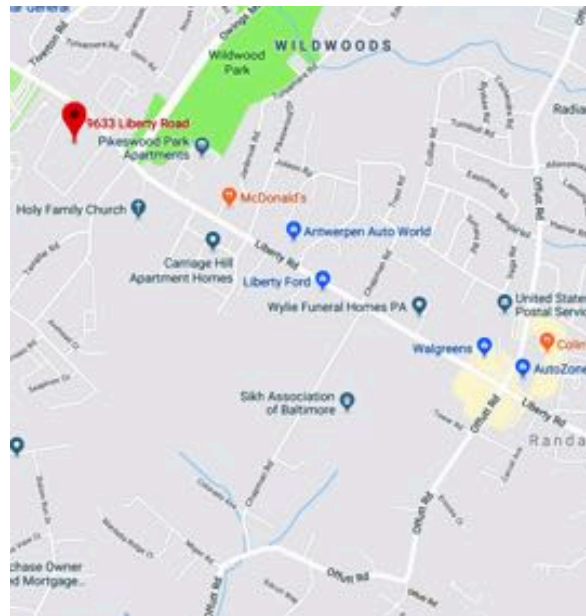

The impairment results in at least one of the following:

- A clear, current threat to the Individual's ability to live in his/her customary setting
- An inability to be employed or attend school without support
- An inability to manage the effects of his/her mental illness
- The client's condition requires an integrated program of rehabilitation services to develop and restore independent living skills to support his/her recovery.
- The client must be concurrently engaged in outpatient mental health treatment.
- All individuals residing in an RRP must have PRP services available.
- The client does not require a more intensive level of care.
- All less intensive levels of treatment have been determined to be unsafe or unsuccessful.

Divine Wellness, Inc.

Provides recovery and person-centered models of rehabilitation treatment programs for individuals with chronic mental illness.

What Is a Psychiatric Rehabilitation Program?

Divine Wellness Inc. Psychiatric Rehabilitation Program (PRP) is a rehabilitation treatment program for individuals with chronic mental illness that is based on the recovery and person-centered models of rehabilitation.

Person-centered models of rehabilitation

Individuals are provided skills and support to embrace their mental wellness, to enhance the quality of their life, and to pursue personally valued roles in their living, learning, work and social environments. The purpose of the program is to promote recovery, resiliency, and empowerment of the individual so that they may function successfully and live as independently as possible in the community of their choice.

Program activities aim to improve the following:

- Reality Orientation / Psychiatric Stability
- Coping Skills
- Academic & Vocational Skills
- Time Management
- Task Completion
- Family & Community Integration

Community Focused

Our Adult Psychiatric Rehabilitation Program (PRP) is a mental health rehabilitation support program designed as an alternative to and prevention of in-patient psychiatric hospitalization. Our PRP program addresses the psychiatric rehabilitative needs of the clients with a chronic mental illness.

This population requires skill development and moderate to intensive support to function independently or with a care giver's support in residential, educational and social environments

Divine Wellness Inc. rehabilitation approach allows clients to identify self-directed goals and develop a plan on how to reach their goals.

Highly Skilled and Dedicated Staff

The rehabilitation team is comprised of a Program Director, Program Coordinator, Licensed Rehabilitation Specialists and Rehabilitation Counselors. Our team ensures a consistent, safe and rehabilitative environment for each client.
